ERKA. FINESSE

Black	550.00000
Light grey	550.00045
Dark grey	550.00005
Navy blue	550.00020
Dark green	550.00055
Burgundy	550.00060
Light blue	550.00025
Pink	550.00035

The following variations are also available upon request  
via [made@erka.org](mailto:made@erka.org):

- \_ Custom-printed membrane
- \_ Matte chrome surface
- \_ Personalized laser engraving

---

The stethoscope for every medical professional.

With the reversible double chest-piece you'll be prepared for all eventualities in everyday medical practice. The membrane side guarantees optimal auscultation for the entire frequency spectrum and the open bell side was specifically designed for the low frequencies.

USER GROUPS:

Anaesthesiologists, cardiologists, emergency physicians, paramedics, general practitioners, internists, assistant physicians, medical students, anaesthetist nurses/caregivers, specialists in respiratory diseases

- 1\_ The pre-tensioned ERKA. convex membrane provides excellent resonance and sound transmission.
- 2\_ The non-chill ring ensures the highest level of patient comfort.
- 3\_ Highly polished and chromium-plated for a non-porous surface, the brass chest-piece ensures perfect surface hygiene.
- 4\_ Two internal channels run parallel in the stethoscope tubing. This prevents the friction noises caused by two separate tubes.
- 5\_ Through the separately integrated spring in the tube, there is no acoustic loss from the chest-piece to the ear.
- 6\_ The ergonomically designed, super soft ear tips create an excellent acoustic seal against external noise interference and maximize wearer comfort and fit.
- 7\_ The standard 15° inclined binurals can be individually adapted to the ear canal characteristics of the user.
